Volunteer Opportunity:
Leader in Training

wizbots
Build. Code. Play.

Are you a former Wizbots student who would like to pass on your enthusiasm for robotics and coding to other campers? Beef up your resume and gain valuable experience by volunteering in Wizbots summer camps!

You will learn what it takes to lead a group, specifically children, and how to work effectively in a team of other youth leaders. Help campers as they work on their robotics projects; help manage all the gear; and greet campers and parents, all while creating a fun and engaging experience for boys and girls ages 8-14. Your experienced lead Mentor is there to guide you.

Hours: 15 hours per week for at least 2 weeks. AM and PM shifts available.
Fee: $25 (*This is to cover the cost of your one-day training on Sunday, June 9th*)
Locations: Burlingame, Cupertino, Los Altos, Menlo Park, Mountain View, Palo Alto, San Carlos, San Jose, and Union City

Requirements:
- ❖ At least 14 years of age.
- ❖ Have achieved at least Explorer level on Wizbots' Path to Mastery.
- ❖ Receive a positive recommendation from a former Wizbots Mentor.
- ❖ Demonstrate a desire, commitment and ability to work with children.
- ❖ Eager to learn new skills such as leadership and communication.
- ❖ Enthusiastic, energetic, organized and creative.
- ❖ Have personal cell phone.
- ❖ TB clearance - test or vaccine.

About Wizbots:
Wizbots is a leading provider of Robotics & Coding programs for girls and boys (ages 8-14) in the San Francisco Bay Area. We utilize LEGO® robotics, but emphasize creativity and design. We teach design thinking, but involve lots of engineering. We also teach kids to code their robots using Java. We are whacky and fanciful, but also techy and practical. We synthesize imagination and engineering in a fun, social, and technically sophisticated learning environment. **To learn more, visit www.wizbots.com**

Interested? **Email us at jobs@wizbots.com with a resume and cover letter telling us why you'd make a great Leader in Training!**
